
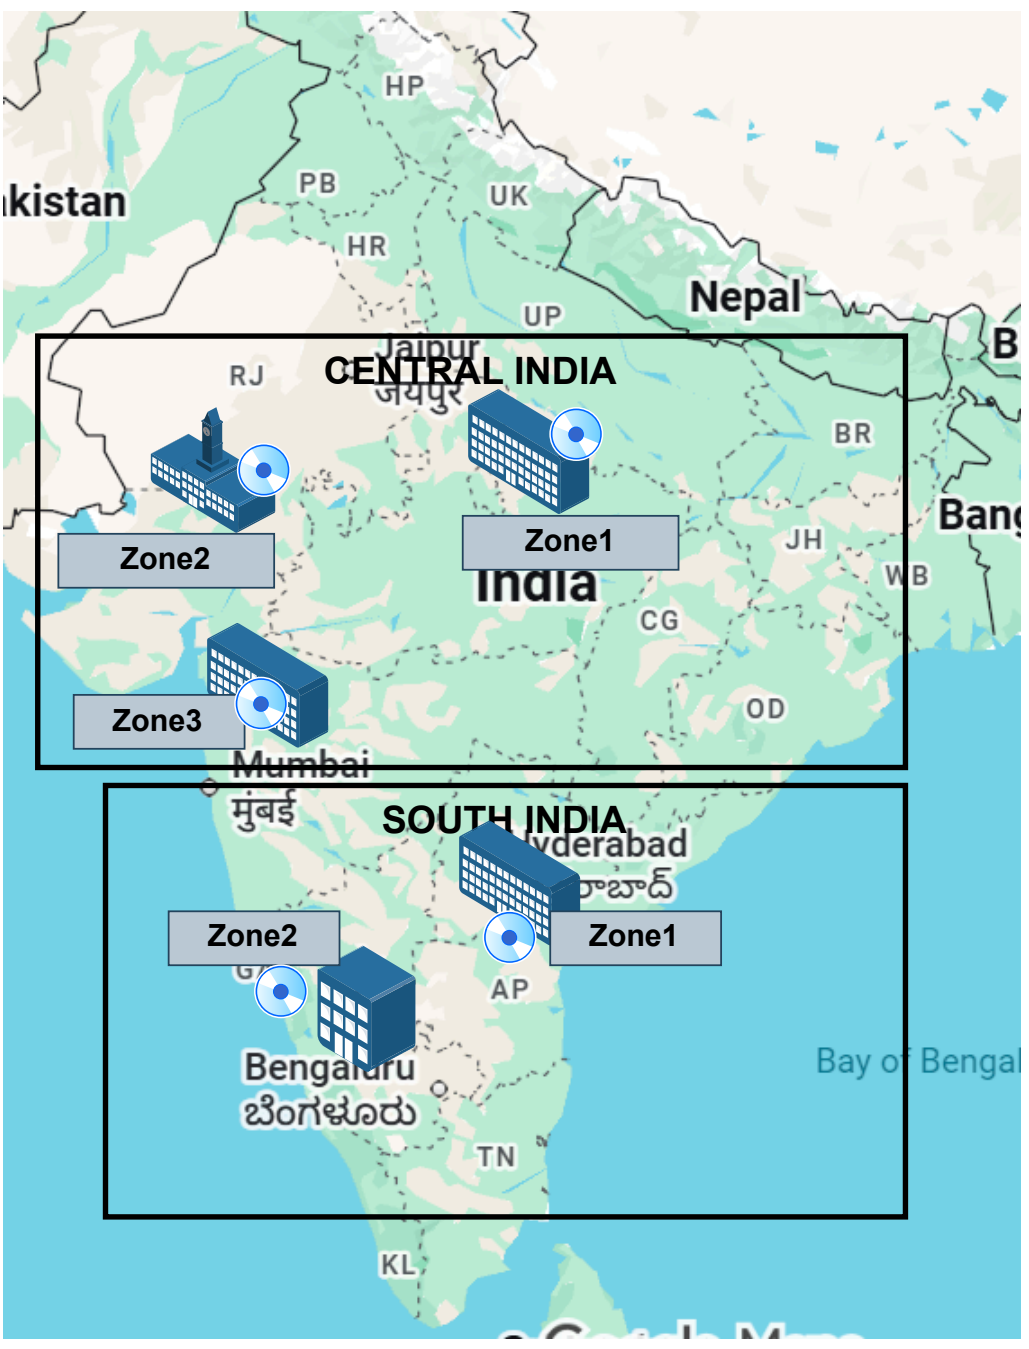
- Locally Redundant Storage (LRS)
- Zone Redundant Storage (ZRS)
- Geo redundant Storage (GRS)
- GZRS



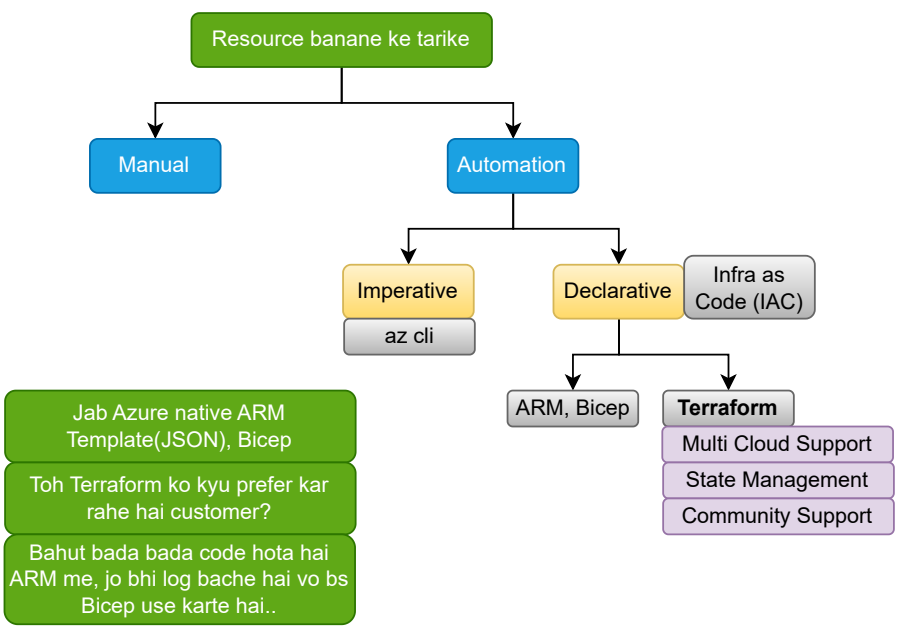
Homework - Explore Azure ke kitne regions hai worldwide

Access will be given till Wednesday(Holi pr), Access milte hi..

1. Open portal.azure.com, Set MFA
2. Go to Entra ID, View Roles and Access
3. Search Subscriptions and Management Groups
4. Create a new Resource Group in the subscription using portal by reading microsoft document.
5. Install az cli on your computer/laptop by reading microsoft document.
6. az cli use karke ek rg bana dena hai --help use karke
7. Resource group ke andar storage account banana hai..

Aaj ka Agenda

1. Create storage account, Create Blob and upload files using portal ✓
2. Create storage account using CLI ✓
3. **Terraform Startsss**
4. AI Assisted Coding



Future is No Code

- Apn ye jo bhi pad rahe hai Infra ke lie kar rahe hai..
- Application ko sulane ke lie..

Requirement - Terraform ke through Resource Group and Storage account ek click banana hai..

India me 10% log bhi 1.5 cr number me hota hai...

Plan

- Pehle har resource ko azure portal se manual banaenge.. Pura feel lenge..
- Fir har resource ko terraform se banana sikhenge... Map of object + Foreach + Dynamic Block + Conditional Iterations + Optional Attributes
- Terraform using Notepad, Terraform using VSCode
- Humko Besharam ban jana hai...
- LinkedIn ka class rakhte hai Tuesday ko.. @9:30 PM
